

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Kristin Tartol  
DOCKET NO.: 05-21336.001-R-1  
PARCEL NO.: 02-14-408-022-0000

The parties of record before the Property Tax Appeal Board are Kristin Tartol, the appellant, and the Cook County Board of Review.

The subject property consists of a 55-year-old, one-story, single-family dwelling of masonry construction containing 1,149 square feet of living area. Features of the home include one full bathroom, air-conditioning and a one-car detached garage. The subject is built with crawl space and located in Palatine Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the suggested comparables. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame or frame and masonry construction located within two blocks of the subject. The improvements range in size from 1,014 to 1,173 square feet of living area and range in age from 52 to 74 years. The comparables contain one full bathroom and a finished or unfinished basement. Three comparables contain a one-car garage. The improvement assessments range from \$13.78 to \$16.27 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,289  
IMPR.: \$ 16,504  
TOTAL: \$ 22,793

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$22,793. The subject's improvement assessment is \$16,504 or \$14.36 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, 60 or 61-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,073 to 1,076 square feet of living area. The comparables contain one or one and one-half bathrooms and a finished or unfinished basement. One comparable contains air-conditioning and two comparables have a one-car garage. The improvement assessments range from \$14.78 to \$16.09 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. These seven properties have improvement assessments ranging from \$13.78 to \$16.27 per square foot of living area. The subject's per square foot improvement assessment of \$14.36 falls within the range established by these properties. In addition, the subject's per square for improvement assessment is lower than five of the seven properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
